**1878** Povestea Felo își are începuturile în 1878, când „Hammermühle”, o fabrică ce producea scule de mână forjate, precum ciocane, clești și șurubelnițe a fost înființată. În 1950 compania a fost relocață la Neustadt (Hessen) și a reînceput producția sub numele Felo. Motivată de puterea sa inovativă, conștiința calității și entuziasm, compania a devenit unul din principalii producători de șurubelnițe din lume..

**1878** Történetünk 1878-ra nyúlik vissza, amikor kovácsolt szerszámok gyártására megalakult vállalatunk elődje „Hammermühle” néven. 1950-ben a cég Neustadtba költözött és FELO néven újraindították a termelést. Az innováció, a minőség iránti elkötelezettség és a lelkesedés a világ egyik vezető csavarhúzógyártójává tette vállalatunkat.

**40** Felo este o marcă tradițional puternică în export. Acum aproape 100 de ani am fost printre primii ce au folosit cataloage în mai multe limbi. Încă de la începuturi ne-am adaptat gama de produse în funcție de cerințele specifice fiecarei piețe. Acum Felo este un jucător global și specialist, exportând în mai mult de 40 de țări din lume.

**40** FELO régi hagyományokkal rendelkezik az export terén. Majd 100 éve kezdtük el használni a többnyelvű katalógusokat. Választékunkat már nagyon korán a különböző piaci igényekhez igazítottuk. A FELO jelenleg több mint 40 országba exportál, köztük Magyarországra is.

**260** Misiunea noastră de a avea sculele cele mai bune a fost intotdeauna forța ce a propulsat Felo și care a făcut ca inovațiile să fie intotdeauna prezente în gama noastră de produse. Produse unice la timpul lor precum șurubelnitele cu mâner bi-component, biții Titanizați și primele sisteme de lame interschimbabile pentru electricieni au izvorât din ideile Felo. 260 de aplicații pentru drepturi de proprietate industrială documentează puterea noastră inovatoare!

**260** A FELO mindenkorán elkötelezetten volt a fejlesztés terén. Folyamatosan törekszünk a jobb, hasznosabb szerszámok kifejlesztésére. Olyan fejlesztések fűződnek a nevünkhez, mint az első kétkomponenses markolat, a TiN bevonatú bitek és a cserélhető pengés csavarhúzók szigetelt kivitelben, villanyszerelők számára. 260 szabadalmi jog bizonyítja innovációs erőinket.

**2000** Mai mult de 2000 de produse diferite se regăsesc în stocul nostru și sunt puse la dispoziția clientilor noștri. În plus, producem cam același număr de produse în versiuni customize, drept scule speciale și sub marcă privată. Clientii noștri vor găsi intotdeauna soluțiile potrivite nevoilor lor aici la Felo.

**2000** Raktárunkban több mint 2000 termékünk várja a vevői igényeket. Ezenkívül ugyanennyi féle szerszámot gyártunk egyedi kivitelben és más márkanév alatt. Partnereink legtöbbször megtalálják a megoldást a FELO szerszámaival.

**1** Misiunea ce ne ține împreună-vrem să ne inspirăm clientii. Felo este un lider în ceea ce privește inovația și calitatea și vrem să rămânem la conducere prin punerea la dispoziția clientilor noștri a sculelor de cea mai bună calitate și cu cele mai avansate caracteristici. Aceasta va rămâne provocarea și misiunea noastră.

**1** Küldetésünk összekovácsol a bennünket inspiráló partnereinkkel. Vezető szerepet töltünk be az innováció és a minőségi szerszám gyártása terén, és ezt a pozíciót nem szeretnénk elveszíteni, ezért törekkszünk a legkiválóbb szerszámok kifejlesztésére. Ez a kihívás biztosítja jövőnkét!

Lama surubelnitei cap cu daltă cu cap ciocan este fixată de un mâner tri-component ergonomic, incomparabil, cu miez de plastic dur, plăcuțe flexibile la presiune și înveliș din elastomer antiderapant.

Az üthető kupakkal ellátott pengét tökéletes, háromkomponenses markolattal látták el, melynek van egy kemény gerince, amit körülölel egy zselés párna csúszásmentes, rugalmas bevonattal.

Capul ciocan și lama surubelnitei cap cu daltă din oțel perfect întărit poate suporta, de asemenea, impacturi dure, în timp ce vibrațiile lor sunt amortizate de corpul mânerului într-un mod care este bland pentru articulații și mușchi.

Az üthető acélkupak és a penge tökéletesen edzett acélból készülnek a kemény ütésekhez, miközben az ütések rezgései a markolat elnyeli, véde az ízületeket és az izmokat

Mânerul cu formă unică E-Slim este cu 30% mai subțire și 20% mai lung și este potrivit ideal pentru a obține echilibrul perfect al torsunii controlate, lungimii și a distanței de siguranță necesare pentru lucru în spații înguste.

Az egyedülálló alakú E-Slim markolat 30%-kal vékonyabb és 20%-kal hosszabb, így tökéletesen ideális a szűk helyeken elhelyezkedő csavarok megfelelő nyomatékú rögzítéséhez vagy oldásához. A hosszabb markolat távolabb tartja kezét a munkaterülettől.

## Dezvoltat împreună cu electricieni!

Villanyszerelők tapasztalatai segítettek a fejlesztésben.

Toate șurubelnитеle sunt certificate conform cu standardele DIN EN 60900 ce impun testarea individuală a fircărei lame la 10,000 de Volti pentru a putea garanta siguranța muncii până la 1,000 de Volti

Minden csavarhúzó 10000 Volton tesztelve a DIN EN 60900 szabványnak megfelelően, így akár 1000 V feszültség mellett is dolgozhat.

Surubelnитеle E-Slim au fost dezvoltate în cooperare cu electricieni pentru electricieni.

Izolația E-Slim este cu pâna la 50% mai subțire decât la șurubelnитеle VDE convenționale, ajutând astfel la operarea șuruburilor îngropate.

Az E-Slim csavarhúzókat villanyszerelőkkel közösen fejlesztettük ki, az ō igényeik és tapasztalataik alapján, hogy a szigetelés ne akadályozza a mélyen fekvő csavarok elérését.

## Gyors, erős, sokoldalú

Mânerul unic, ale cărui plăcuțe flexibile la presiune se adaptează mânii, ușurează lucrurile de înșurubare. În timp ce clichetul (60 dinți) permite o înșurubare deosebit de rapidă, mecanismul de flambaj oferă cupluri extrem de mari (50 Nm) și mărește accesibilitatea șuruburilor dificil de accesat.

A rugalmas markolat igazodik a felhasználó tenyeréhez és egyedülálló kényelmet biztosít munka közben. A 60 fogú racsnis szerkezet erős (>50 Nm) és gyors munkavégzést biztosít a nehezen hozzáférhető helyeken is.

**ERGONIC K** este o combinație unică a mânerului **ERGONIC** patentat, cu un clichet cu performanțe ridicate cu mecanism de flambaj de 180° și mandrină pentru prindere rapidă 1/4".

Az ERGONIC K a szabadalmaztatott ERGONIC markolat és a nagy teljesítményű elforgatható racsni szerkezet egyedül álló kombinációja egy gyorskioldó csatlakozással kiegészítve.

## 4 IMPACT

**Cu cascadă unică de absorbție a șocurilor pentru cea mai bună protecție și  
cea mai lungă durată de viață chiar și la cele mai dure șocuri!**

Az egyedülálló terhelést csökkentő rendszerrel, a legjobb védelem  
és a lehető leghosszabb élettartam érdekében, még dinamikus terhelésnél is!

## 4 IMPACT

- cascadă absorbtie șocuri S-M-L pentru o gamă variată de torsuni (e.g. PH1 – PH3).
- Zonele sincronizate de torsiune sunt declanșate secvențial de către impulsurile crescute de torsiune și absorb vârfurile de torsiune.
- O a patra zonă adițională de absorbție a șocurilor, când este folosit cu biții Felo IMPACT.
- Conceput special pentru a fi folosit cu mașinile de impact tangențiale.
- Cu inel rotativ
- A szinkronizált torziós-zónák egymásután indulnak, növelve a nyomatéktartományhoz (pl: PH1-PH3).
- A folyamat negyedik lépése lehet, ha a terhelést csökkentő FELO IMPACT biteket használja
- Speciálisan ütvecsavarozókhöz fejlesztett bittartó
- Megtartó gyűrűvel.

## TORSION Torziós

**Biți de înaltă performanță ce absorb vârfurile de torsiune**  
**Măresc substanțial durata de viață a sculei, reduc presiunea de contact**  
A nagy teljesítményű bit • elnyeli a hirtelen nyomatékterhelést  
• jelentősen meghosszabbítja a bitek élettartamát • csökkenti az indulási nyomatéket

### Șuruburi de îmbinare în suprafețe tari

**Șuruburi de îmbinare în suprafețe tari**  
**Problema:**

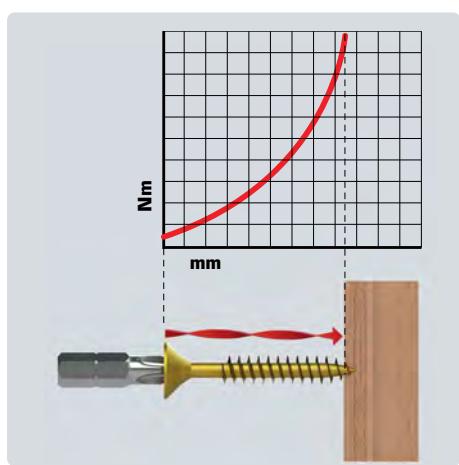

Vârful brusc de torsiune produs atunci când capul șurubului atinge suprafața în care este înșurubat, poate distruge atât șurubul cât și bitul.

**Soluția:**  
**Biți TORSION de la Felo absorb vârfurile de torsiune, prevenind efectiv distrugerea biților.**

### Kemény becsavarási felület

**Probléma:**  
A hirtelen nyomatékterhelés eltörheti a bitet vagy a csavarfejet és megrongálhatja a munkadarabot

**Megoldás:**  
A FELO TORSION bitek elnyelik a hirtelen nyomatékterhelést, így megakadályozzák a törés okozta károkat.

### Șuruburi de îmbinare în suprafețe moi

**De ex. înșurubarea în lemn,**  
**cu o torsiune ce crește treptat**

**Avantaj extra:**  
**Profile special rezistente la uzură**  
**cresc durata de viață a biților**

### Rugalmas becsavarási felület

**például:**  
facsavarak,  
a nyomaték folyamatosan növekszik a behajtás ideje alatt

**Extra előny:**  
A különösen kopásálló profil növeli a bitek élettartamát.

#### Înșurubare Csak befélé

Înșurubați pur și simplu șurubul LocTec® cu bitul autoblocabil. Nu mai sunt necesare alte măsuri suplimentare de blocare ale șurubului.

Egyszerűen csavarja be a LocTec® csavart. Nincs szükség egyéb rögzítési intézkedésekre. Oldhatatlan kötést biztosít.

#### Încercare de desfiletare a șurubului Hiába próbálja meglazítani a csavart

Geometria specială a bitului asigură imposibilitatea oricărei încercări de a desface șurubul-chiar și cu ajutorul bitului LocTec®-deoarece acesta va fi aruncat din șurub.

A különleges geometria biztosítja, hogy a csavar lazításának minden kísérlete - még a rögzítő bit használatával is - meghiúsuljon

# Verkaufs- und Lieferbedingungen

Nachstehende Lieferbedingungen gelten durch Auftragserteilung als vereinbart. Hier von abweichende Vereinbarungen werden erst durch unsere schriftliche Bestätigung gültig. Siehe den übrigen Teil der Verkaufs- und Lieferungsbedingungen nicht auf.

## 1. Angebot und Vertragsabschluss

Unsere Angebote sind freibleibend, Verträge und sonstige Vereinbarungen werden erst durch unsere schriftliche Bestätigung oder durch unsere Lieferung/Leistung verbindlich. Sämtliche Vereinbarungen zwischen uns und unseren Kunden sind bei Vertragsabschluss schriftlich niedergelegt. Bei oder nach Vertragsabschluss getroffene Vereinbarungen zwischen unseren Mitarbeitern oder Vertretern und unseren Kunden bedürfen zu ihrer Gültigkeit unserer schriftlichen Bestätigung; die Vertretungsmacht unserer Mitarbeiter und Vertreter ist insoweit eingeschränkt. Ergänzungen, Änderungen oder Nebenabreden bedürfen ebenfalls der Schriftform. Dies gilt auch für die Aufhebung des Schriftformerfordernisses.

## 2. Lieferverpflichtung

Voraussetzung für die Lieferpflicht ist die unbedingte Kreditwürdigkeit des Kunden. Werden die Zahlungsbedingungen nicht eingehalten oder werden Umstände bekannt, die die Kreditwürdigkeit des Kunden ernsthaft in Frage stellen oder wird ein Scheck nicht eingelöst, so werden sämtliche offen stehende Forderungen fällig. Nach fruchtlosem Ablauf einer von uns gesetzten Nachfrist, auch ohne Kündigungsandrohung, sind wir berechtigt, den Vertrag schriftlich zu kündigen und die Lieferungen einzustellen sowie alle bisher erbrachten Lieferungen abzubrechen.

Teillieferungen sind zulässig.

Bei Sonderanfertigungen behalten wir uns eine Mehr- oder Minderlieferung von 10 % vor, auch für den Fall, dass Teillieferungen bereits erfolgten oder noch erfolgen. Bestellungen auf Abruf sind, wenn nichts anderes schriftlich vereinbart ist, spätestens innerhalb von einem viertel Jahr nach Ablauf der Vertragsfrist abzunehmen, ohne dass wir die Abnahme unter Fristsetzung annehmen. Nach Ablauf dieser 3 Monate sind wir berechtigt, nach unserer Wahl entweder die Ware in Rechnung zu stellen oder den Auftrag zu streichen. Störungen und Ereignisse höherer Gewalt berechtigen uns, die eingegangene Lieferfrist für die Dauer der Betriebsverhinderung und einer angemessenen Anlaufzeit zu verlängern. Unter Umständen können auch unsere Lieferverpflichtungen ganz oder teilweise aufgehoben werden. Dies gilt auch, wenn uns die Lieferung unmöglich geworden ist, ohne dass wir dieses zu vertreten haben.

Der Kunde kann von uns dann die Erklärung verlangen, ob wir zurücktreten oder innerhalb angemessener Frist liefern. Die Geltendmachung von Ersatzansprüchen in irgendwelcher Art infolge verspäteter Lieferung ist auf einen Maximalwert von 5 % des Auftragswertes beschränkt.

## 3. Lieferzeit

Die Lieferzeit ist eingehalten, wenn bis zu ihrem Ablauf die Versandbereitschaft mitgeteilt ist, oder der Liefergegenstand das Werk verlassen hat. Der in der Auftragsbestätigung genannte Termin ist freibleibend, wenn nicht eine gesonderte schriftliche Lieferzusicherung erfolgt ist.

## 4. Preise

Unsere Preise beruhen auf den zum Zeitpunkt der Auftragsannahme gültigen Kalkulationsunterlagen. Lieferungen, die später als 4 Monate nach Vertragsabschluß erbracht werden, berechnen uns, z.B. bei Lohn und / oder Materialpreiserhöhungen, eine Anpassung der Preise bis zu maximal 5 % vorzunehmen.

## 5. Transport

Die Wahl des Transportweges und der Transportmittel erfolgt nach bestem Ermessen ohne Haftung für den billigsten Weg. Sofern uns besondere Vorschriften gegeben werden, erfolgt der Versand entsprechend. Das Transportrisiko trägt in jedem Fall der Empfänger, auch dann, wenn die Lieferung frei Empfangsort oder FOB eines Schiffes vereinbart wird. Mit Verlassen des Werkes wird die Ware als bedingungsgemäß geliefert betrachtet, auch wenn sie unmittelbar an Dritte gesandt wird.

## 6. Eigentumsvorbehalt

Die gelieferte Ware bleibt bis zur Erfüllung aller uns aus der gegenseitigen Geschäftsbeziehung zustehenden Ansprüchen unser Eigentum. Der Kunde darf die in unserem Eigentum stehende Waren weder an Dritte verpfänden noch zur Sicherheit übergebenen. Bei Prüfung der in unserem Eigentum stehenden Ware ist der Kunde verpflichtet, uns sofort zu benachrichtigen und zwar unter Vorlegung der Pfändungspapiere und einer eidestatlichen Versicherung, aus der hervorgeht, dass die Ware unser Eigentum ist. Die Kosten für eine evtl. notwendig werdende Intervention trägt der Kunde. Der Kunde ist berechtigt, die gelieferte Ware im ordnungsgemäßen Geschäftsgang weiter zu veräußern. Im Falle der Weiterveräußerung tritt an der Stelle der gelieferten Ware der Anspruch des Kunden an seinen Abnehmer, der bis zur Höhe unserer gesamten Forderungen schon jetzt als an uns abgetreten gilt. Der Kunde ist zur Einziehung der Forderung bis auf Widerruf berechtigt. Auf Verlangen ist der Kunde verpflichtet, die Abtretung den Drittschuldner mitzuteilen und uns die zur Geltendmachung unserer Rechte erforderlichen Auskünfte zu geben und Unterlagen auszuhändigen. Die Abtretung der Forderungen wird von selbst hinfallig, sobald der Kunde die Kaufpreisschuld bzw. alle Verbindlichkeiten aus laufender Geschäftsverbindung beglichen hat. Ist der Eigentumsvorbehalt oder die Abtretung nach dem Recht, in dessen Bereich sich die Ware befindet, nicht wirksam, so gilt der dem Eigentumsvorbehalt und der Abtretung in diesem Bereich entsprechende Sicherung als verbindlich. Ist zur Entstehung solcher Rechte die Mitwirkung des Kunden erforderlich, so ist er auf unsere Anforderung hin verpflichtet, alle Maßnahmen zu treffen, die zur Begründung und Erhaltung solcher Rechte erforderlich sind.

## 7. Zahlung

Für die Zahlung sind unsere jeweiligen Bedingungen maßgebend. Abzüge jeder Art ohne die entsprechende Vereinbarung sind unzulässig. Eingereichte Schecks gelten erst nach vollständiger Einlösung als Zahlung. Bei Überschreitung der Zahlungsfrist werden vom Fälligkeitstag an unter Vorbehalt der Geltendmachung weiteren Verzugsschadens Verzugszinsen berechnet. Der berechnete Zinssatz beträgt 9 %. Gerät der Kunde mit seiner Zahlung in Verzug, so steht uns das Recht zu, sofortige Zahlung aller offenen, auch noch nicht fälligen Forderungen oder eine Herausgabe der gelieferten Ware bis zur vollständigen Begleichung unserer Forderung zu verlangen.

## 8. Gewährleistung

Beanspruchungen über Menge und Qualität können nur angenommen und geprüft werden, wenn sie schriftlich innerhalb von 14 Tagen nach Eingang der Ware am Bestimmungsort vorgenommen werden. Waren, die wir als fehlerhaft anerkennen, nehmen wir zurück und liefern dafür Ersatz. Weitere Ansprüche des Kunden können wir nicht anerkennen.

## 10. Salvatorische Klausel

Sollten Bestimmungen dieses Vertrages unwirksam, unvollständig oder undurchführbar sein, so bleiben die übrigen Bestimmungen unverändert gültig. In diesem Falle soll eine Regelung gefunden werden, die im Rahmen des gesetzlich Zulässigen wirtschaftlich dem am nächsten kommt, was die Parteien gewollt haben oder gewollt haben würden, wenn sie diesen Punkt bedacht hätten.

# Terms of Sale and Delivery

The following terms of delivery shall be considered as agreed upon at order placement. Deviating agreements shall only obtain validity by our written confirmation. The deviating agreements shall not rescind the remaining terms of sale and delivery.

## 1. Quotation and Conclusion of Contract

Our quotations shall be without engagement. Contracts and other agreements shall only become binding through our written confirmation or our performance. All agreements between us and our customers shall be concluded in writing at conclusion of contract. Agreements made between our employees or representatives and our customers during or subsequent to contract conclusion shall only become valid with our written confirmation; the power of attorney held by our employees or representatives shall be limited in this respect. Supplements, modifications or additional agreements also require the written form. This shall also apply to rescinding the requirement of the written form.

## 2. Delivery Commitment

The customer's unconditional creditworthiness shall be a prerequisite for delivery commitment. Should the terms of payment not be adhered to or circumstances become known which seriously put the customer's creditworthiness into question or if a cheque is not honoured, all receivables become due. On failure of payment within an adequate period of grace set by us, even if devoid of a threat of termination, we shall be entitled to withdraw from the contract in writing and discontinue deliveries and cease all previously performed deliveries. Partial deliveries are admissible. We reserve the right to 10 % over or short delivery for custom-made products, this also applies in case partial deliveries have already been made or are yet to be made. If nothing else has been agreed upon in writing, orders on call must be purchased within three months of expiry of the contractual deadline, without us having to send a reminder containing an explicit purchase deadline. After these three months have expired, we shall optionally be entitled to either invoice the goods or cancel the order. Disruptions and force majeure incidents entitle us to extend the agreed delivery period for the duration of the operative hindrance and a reasonable start-up period. As this case may be our delivery commitments may also be revoked partially or completely. This also applies if it has become impossible for us to deliver at no fault of ours. The customer may then demand our statement as to whether we want to withdraw from delivery or deliver within a reasonable deadline. Compensation claims of any kind resulting from late delivery are limited to 5 % of the order value.

## 3. Delivery Period

The delivery period shall be deemed as adhered to if readiness for shipment has been notified or the object of delivery has left the manufacturing company before expiry of the delivery period. The deadline mentioned in the order confirmation is without engagement unless a separate written delivery confirmation has been issued.

## 4. Prices

Our prices are based on the calculation documents applicable at the time of order acceptance. Deliveries which are performed later than four months after conclusion of contract entitle us to adjust the prices by maximally 5%, e.g. in case of wage increases or increases in material prices.

## 5. Transport

The choice of the route or means of transport is made according to best judgement with no liability for the cheapest route. As far as particular specifications have been provided to us, shipping shall proceed accordingly. The risk of transport shall in any case be borne by the receiver, even if delivery 'free at destination' or FOB a ship has been agreed. On departure from the manufacturing company the goods shall be regarded as delivered according to agreement, even if they are delivered directly to third parties.

## 6. Reservation of Title

We reserve the title for the delivered goods until all our rightful claims resulting from our mutual business relationship have been fulfilled. The customer may neither pledge the goods which are in our property, nor convey them as collateral to third parties. On the seizure of goods which are our property the customer shall be committed to notify us of this immediately and furthermore present us with the seizure documents as well as an affidavit showing that the goods are our property. The expenses for a possibly required intervention shall be borne by the customer. The customer shall be entitled to resell the delivered goods in the regular course of business. In case of a resale, the customer's claim towards the sub-purchaser, which is already considered as assigned to us up to the amount of our total receivables, shall replace the delivered goods. The customer is entitled to collect the receivables until such title is revoked. Upon request the customer is committed to notify the garnissees of such assignment and disclose to us any information and hand out any documents to us required in order to protect our rights. The assignment of the receivables shall lapse as soon as the customer has honoured the debt resulting from the purchase price and/or all debt resulting from the current business relationship. Should reservation of title or assignment be invalid according to the jurisdiction in the area where the goods are located, the collateral which applies in that area ensuring reservation of title and assignment shall be considered agreed. Should the customer's cooperation be necessary for the origination of such rights, customer shall be committed to take all measures required in order to constitute and preserve such rights.

## 7. Payment

Our respective terms are applicable to payment. Deductions of any kind without a respective agreement are prohibited. Cheques that have been handed in shall only be considered as payment after their full encashment. On exceeding the payment deadline default interests shall be charged as of the due date, subject to any claim for further default damages. The charged default interest rate is 9 %. In the event that the customer enters into default with their payment, we have the right to demand immediate payment of all arrears including those which have not yet entered into default, or release of the delivered goods until complete payment of our receivables.

## 8. Warranty

Complaints concerning quantity and quality can only be accepted and examined if made in writing within 14 days after receipt of the goods at the place of destination. Goods which we acknowledge as being defective will be taken back and replaced. Any additional claims by the customer shall not be recognised by us.

## 9. Place of Performance and Jurisdiction, Language

Place of performance shall be 35279 Neustadt Kreis Marburg, Federal Republic of Germany. Place of Jurisdiction - notwithstanding the amount of the subject - shall be the Marburg / Lahn district court. German Law shall prevail. Contract language shall be German. In case of dissent the German version shall prevail.

## 10. Severability Clause

Should any provision of this agreement be or become invalid, ineffective or unenforceable, the validity, effectiveness and enforceability of the remaining provisions shall not be affected thereby. In such event a provision must be found that comes as closest to the legally permitted economic intent and purpose of what the parties had or would have intended had they considered the aspect.
